Metro Ethernet

HELPING YOUR ENTERPRISE
 REACH ITS FULL ONLINE POTENTIAL

With continually increasing need for more bandwidth on smaller budgets, businesses need efficient, effective and affordable networking options to keep employees connected with each other and with clients.

EnTouch's Metro Ethernet service offers reliable, guaranteed performance, with data speeds that exceed a gigabit. We offer a wide range of bandwidth and configurations to meet any budget and just about any business challenge. And our service is easily scalable, to grow as your business grows.

Our Metro Ethernet service includes:

Dedicated Internet Access – high performance, business-grade internet access for your applications, online content and website.

Ethernet Transport Services (On-Net) – the physical, fiber connection between your location and the enTouch network that is your foundation for lightning-fast internet performance.

Ethernet Transport Services (Off-Net) – the virtual connection between your primary location and other locations outside the enTouch network, anywhere in the U.S.
